Supporting Western Australians affected by road trauma

Road Trauma Support WA provides support, information and counselling to Western Australians affected by a road crash.

We support anyone who has been affected by a road crash. This includes anyone who has lost a loved one, anyone who has been injured or anyone who has caused a road crash. Families, friends, carers, first responders and witnesses can all access our service.

**Your experience and the support you need is personal to you.** Our service offers free information and tools to help guide you through some of the concerns and emotions you may have after a road crash.

To access our fact sheets and brochures visit us at [www.rtswa.org.au](http://www.rtswa.org.au)

**Everyone has different ways of dealing with the impact of a road crash.** You may find it helpful to talk to someone, particularly if you are struggling with everyday activities, special events or anniversaries.

## The impact of a crash can be felt long after the scene is cleared

We provide free counselling in person, over the phone, or video call. You can access counselling regardless of when the crash occurred, with no referral needed.

Our specialised counsellors will help you in a safe, non-judgemental and confidential manner.

**Road Trauma Support WA is proudly delivered by Injury Matters.**

For over 25 years, Injury Matters has been an injury prevention and recovery advocate for the Western Australian community.

We deliver presentations and workshops to groups and workplaces wanting to learn more about reducing the impact of road trauma. Please call to discuss how we can tailor a session to suit your needs.
